

BHAGYASHREE BHAGAT

AI/ML & Data Science Enthusiast | Generative AI | Software Developer

Navi Mumbai, Maharashtra, India | 9167177647 | bhagyashreebhagat8@gmail.com

linkedin.com/in/bhagatbhagyashree | github.com/BHAGATBHAGYASHREE

SUMMARY

AI/ML Engineer and Data Scientist with hands-on experience in Machine Learning, Deep Learning, Generative AI, Data Analysis, and Full-Stack (MERN) Development. Delivered 4+ end-to-end projects — Maternal Health Risk Predictor, Spendora (React.js application tracking 50+ orders via cloud-based storage), Pronto, and RentEase — using Python, Machine Learning, MongoDB, Express.js, React.js, and Node.js. Skilled in Data Structures & Algorithms, Statistical Modeling, Predictive Analytics, Data Visualization, and Software Development. Seeking roles as Data Scientist, Machine Learning Engineer, or Software Developer.

WORK EXPERIENCE

Datacenter Operator — HDFC Bank*Jul 2025 – Dec 2025*

- Maintained data center infrastructure supporting enterprise data pipelines, ensuring 99%+ uptime and operational efficiency.
- Managed asset tracking, incident response, and SLA compliance across banking IT operations, applying data monitoring best practices.

Corporate Trainer, Generative AI — Zinq Technologies*Apr 2024*

- Trained 20+ employees on Generative AI and LLM-based tools (ChatGPT, DALL-E) to improve productivity and data-driven workflows.
- Conducted hands-on workshops on AI-assisted content creation using prompt engineering techniques.

Software Development & Engineering Intern — LetsUpgrade*Dec 2023 – Jan 2024*

- Redesigned website UI/UX using data-driven, user-behavior insights, improving user engagement.
- Collaborated in Agile sprints with cross-functional teams to deliver product milestones on schedule.

PROJECTS

Maternal Health Risk Predictor | maternal-risk-ai.vercel.app

- Built an AI-powered maternal health risk prediction system using Python, Machine Learning, and healthcare IoT data.
- Engineered and trained predictive models to classify maternal health risk levels, improving early risk detection accuracy.

Spendora – Personal Finance & Business Order Tracking Platform

- Developed Spendora, a full-stack ReactJS application unifying Personal Finance Management and Business Order Tracking through a responsive, scalable user interface.
- Architected cloud-based data storage and database design to track and synchronize 50+ orders in real-time, improving data reliability and system scalability.

Pronto – Real-Time Grocery Delivery Application

- Developed a full-stack, real-time grocery delivery platform using React.js, Node.js, Express.js, and MongoDB with live order tracking.
- Implemented REST APIs for order management and designed a responsive UI to reduce cart abandonment.

RentEase – Car Rental Platform

- Built a full-stack car rental web application using the MERN stack, supporting real-time booking and availability management.
- Designed and implemented user authentication, booking workflows, and database schema in MongoDB.

SKILLS

Programming Languages: Python, C++, SQL, JavaScript, TypeScript, HTML, CSS

Machine Learning & Data Science: Machine Learning, Deep Learning, Artificial Intelligence, Predictive Modeling, Predictive Analytics, Data Analysis, Data Analytics, Data Visualization, Exploratory Data Analysis (EDA), Statistical Analysis, Statistics, Neural Networks, Natural Language Processing (NLP).

ML/AI Frameworks & Libraries: TensorFlow, PyTorch, Scikit-Learn, Keras, Pandas, NumPy, Matplotlib

Data Structures & Algorithms: Data Structures, Algorithms, Problem Solving, System Design, Object-Oriented Programming (OOP), Software Engineering

Full-Stack Web Development: MERN Stack, MongoDB, Express.js, React.js, Node.js, REST API, RESTful Web Services, Web Development, Software Development

Database Management: MongoDB, SQL, Database Management, Database Design

Cloud, Tools & Platforms: AWS, Amazon Web Services, EC2, S3, IAM, Git, GitHub, Version Control, Jupyter Notebook, VS Code, Postman, Power BI, Agile Methodology, Scrum

CERTIFICATIONS

- Prompt Design in Vertex AI — Google Skill Badge
- Build Real World AI Applications with Gemini and Imagen — Google Skill Badge
- Data Analytics Job Simulation — Deloitte Australia (Forage)
- Data Science Job Simulation — British Airways (Forage)

ACHIEVEMENTS

- 1st Place, Inter-College Shark Tank Competition (2023)
- 2nd Place, Buildathon 3.0

EDUCATION

ITM Group of Institutions — Bachelor of Technology, Computer Science Engineering	<i>Aug 2023</i>
Ramsheth Thakur Higher Secondary Vidyalaya — PCMB (IT), 12th Standard	<i>2020 – 2022</i>
Harmony Public School, Kharghar — 10th Standard	<i>2020</i>

INTERESTS

Machine Learning, Data Analytics, Statistical Analysis, Data Visualization, Predictive Modeling, Research & Problem Solving

LANGUAGES

English, Hindi, Marathi, German (Intermediate)
